Common Kaltura FAQs (MediaSpace)

Kaltura MediaSpace is UD's cloud-based video portal for storing and streaming video and audio. These are the most frequently asked questions about using the platform.

Remember to only upload content you own or have permission to use. Copyrighted material shouldn't be uploaded to MediaSpace without express permission. This protects both you and the University from copyright violations.

What is Kaltura MediaSpace?

Kaltura MediaSpace is UD's secure, cloud-based video for storing and streaming video and audio. It also allows you to create video quizzes, interactive video paths, playlists, and more! Read more about exciting Kaltura features!

How do I access Kaltura MediaSpace?

Kaltura MediaSpace can be accessed by navigating a web browser to https://mediaspace.udayton.edu. If you're not logged in, click on the person icon (user menu) and select "Login". If prompted, enter your UD credentials and acknowledge the Duo 2FA prompt.

What is the Warpwire to Kaltura transition timeline?

Dates are subject to change.

April 22, 2025
Kaltura is available to use.

August 29, 2025
Your Warpwire videos will be migrated to your My Media in Kaltura MediaSpace.

October 2025
Warpwire will no longer be accessible.

When do I need to stop using Warpwire?

If you are planning to upload new videos, you're strongly encouraged to use Kaltura MediaSpace. The ability to add new videos to Warpwire will be disabled shortly before the Fall 2025 term.

What is the difference between My Media, My Channels, and My Playlists?

My Media, My Channels, and My Playlists can all be accessed in MediaSpace.

- **My Media** is your personal library, where you store all the media you've uploaded or created. Learn more about My Media
- **My Channels** contains collections of videos you've created or have access to. Channels are a way to organize content by topic or theme. Learn more about channels
- **My Playlists** contains playlists of videos you've created. Playlists are a way to organize and order related videos. Learn more about playlists

How do I upload media to MediaSpace?

See "Upload media"
After the media is uploaded, you'll have the option to publish it. We recommend making videos "Unlisted" in My Media for most users. This will allow you to share the video with anyone who has the link.

How do I publish media in MediaSpace?

See "Publish media"

We recommend making videos “Unlisted” in My Media for most users. This will allow you to share the video with anyone who has the link.

How do I share media?

See "Share and embed media"

How do I make a video, audio, or screen recording?

There are two recording features available - Express Capture and Kaltura Desktop Capture. We recommend using Kaltura Desktop Capture, but this article compares the two features.
See “Create a recording with Kaltura Capture”
See "Create a recording with Express Capture"
Kaltura Capture vs Express Capture

How can I edit closed captions?

See "Manage captions"

What file types does Kaltura accept?

See “Supported file types in video portal”

What devices and browsers work with Kaltura?

See "Supported browsers and devices for Video Portal"

Why can’t I create a library?

Kaltura MediaSpace doesn’t use folders or libraries. Playlists, channels, and tags are the recommended methods for organizing videos.

Where can I find Kaltura training?

- Training Sessions (by the Center for Online Learning)
- Knowledge Center
- Tutorial Videos

- Live Webinars

What are some features to be excited about?

- Video quizzes
- Hot spots
- Interactive paths
- Playlists
- Built-in editing
- Analytics

Can I use Kaltura in Canvas?

Yes, if you have a Canvas course, you can use the Kaltura integration.
