Documents Reviewed:
Internal Review Process:
DISCLAIMER: The concerns identified by the Review Team and highlighted in the following report were obtained according to the best of their knowledge and the circumstances at the time of the review. It cannot be guaranteed that
these concerns are the only deficiencies currently existing within the program. Further, it cannot be assured that the correction of these areas will be sufficient to achieve ACGME-I full accreditation in the next program accreditation
review. Finally, additional deficiencies may be identified at the next visit.
PROGRAM OVERVIEW:
REVIEW OF THE PROGRAM:
The Review Team conducted the accreditation review process according to the OMSB General Guidelines for Accreditation, Program and Training Site (P and T) Standards, ACGME-I Foundational Program Requirements, and
ACGME-I Advanced Specialty Program Requirements for (Program).
