2. Share

First of all, click on the “**Affiliate Profile**” [menu](#).

In “**Affiliate Profile**” menu setting, you can manage your Affiliate Partner earnings, check the statistics and lots more.

The “**Affiliate Profile**” menu is divided into two separate tabs: “**Reports**” and “**Profile**”. Let’s check what we can see at the “**Reports**” tab first.

Here you see the six different windows of your

account:

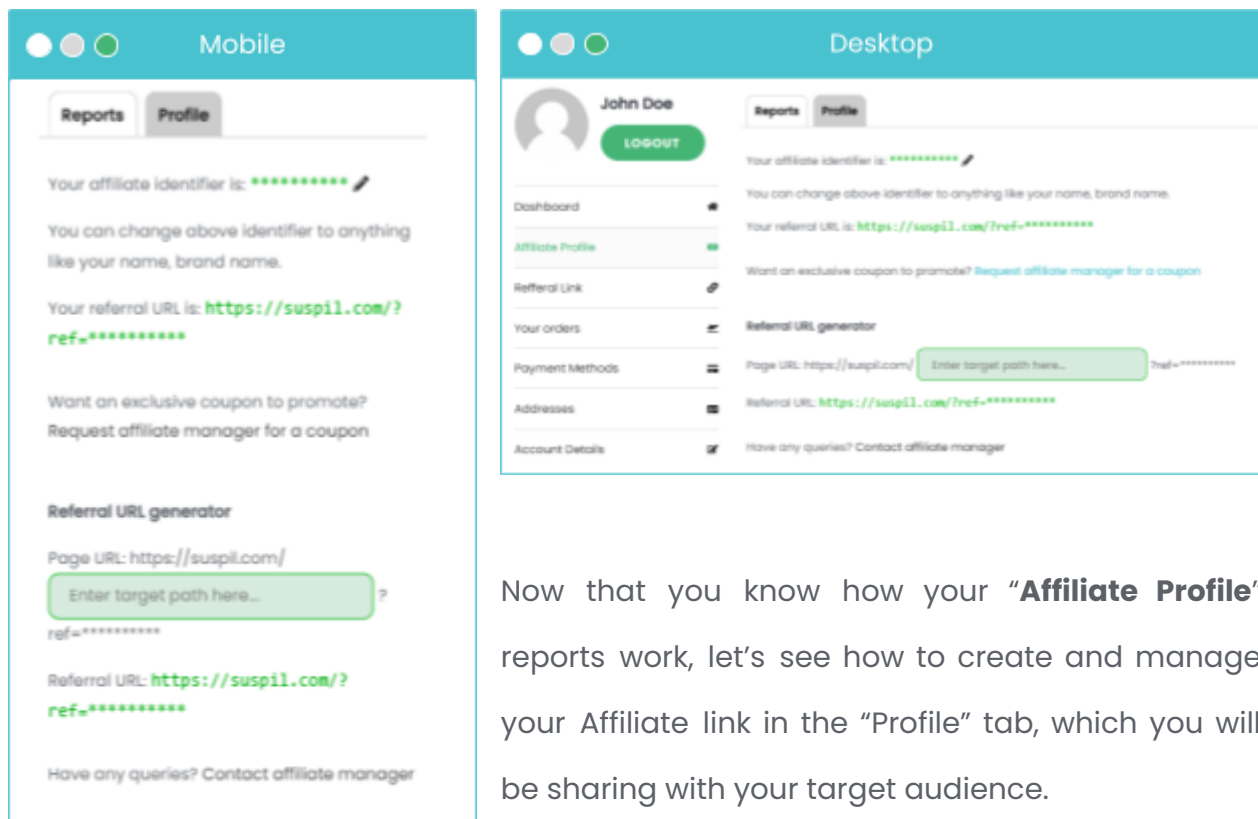

1. **Gross Commission.** This is your funds that you have earned with Suspil and can withdraw at any moment.
2. **Refunds.** The orders that have been refunded to customers. Sometimes it may happen that the client asks for a refund and the total amount refunded.
3. **Net Commission.** The commission earned before deducting the refunds.

Let’s stop for a moment and learn how the commissions are calculated. Let’s say you earned 10000 \$ by selling the products (**Net Commission**). One user asks for a 100 \$

refund (**Refunds**), after deducting the refund, your earnings will be 9900 \$ (**Gross Commission**).

Let's continue.

4. **Sales.** Total amount of products that you have sold.
5. **Visitors.** It displays how many people have followed your link and visited Suspil.
6. **Conversion.** Business partner's conversion rate.

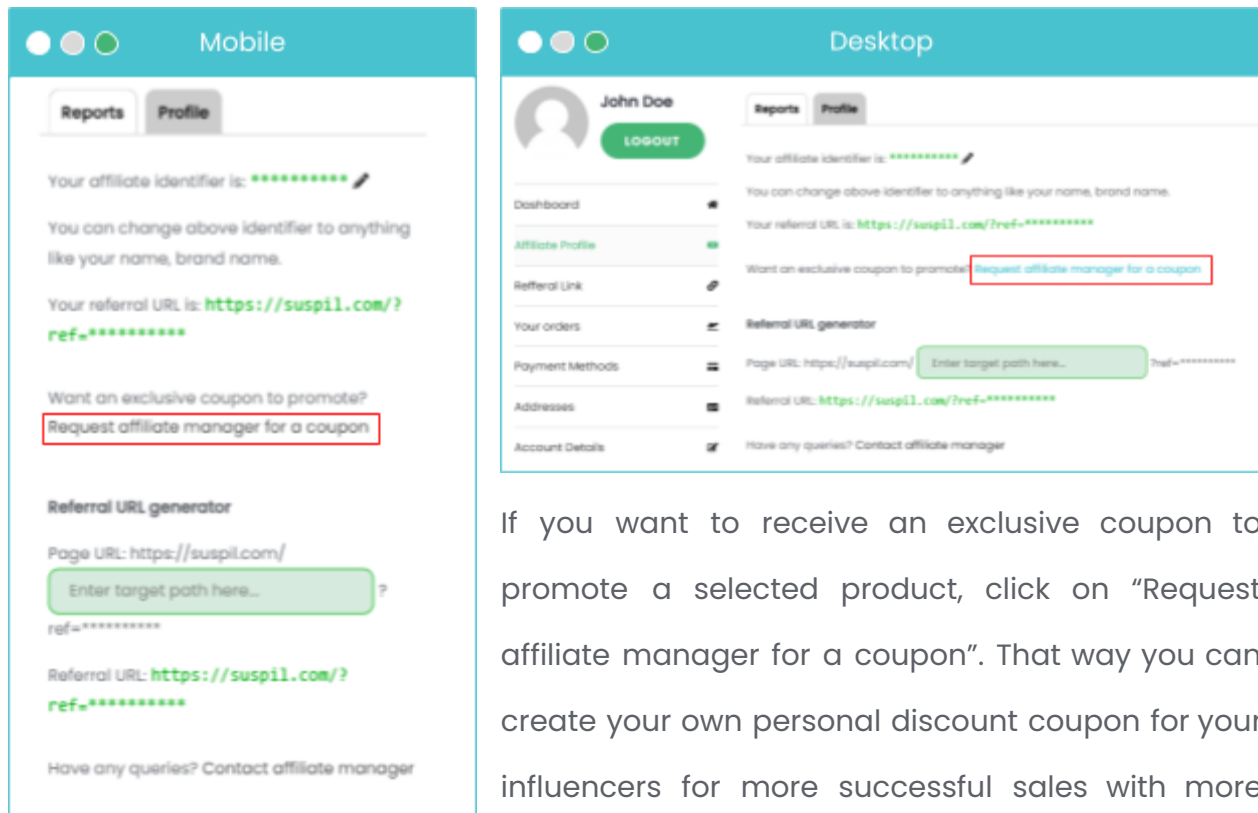

Now that you know how your “**Affiliate Profile**” reports work, let's see how to create and manage your Affiliate link in the “Profile” tab, which you will be sharing with your target audience.

Finally, the best Affiliate Partners have the most unique Affiliate links. The importance of unique Affiliate links increases your chances of users following it.

In this example, your basic Affiliate Link (or URL) looks like this:

https://suspil.com/?ref=*****

To change it to more suitable, click on the pencil icon and rename the ending part to your desire.

If you want to receive an exclusive coupon to promote a selected product, click on “Request affiliate manager for a coupon”. That way you can create your own personal discount coupon for your influencers for more successful sales with more attractive price. For example, when you are promoting the Suspil, mention to your followers that by using your discount coupon they will receive massive discount.

To get your own promotional coupon, click on “Request affiliate manager for a coupon”. You will be directed to our support manager which will help you to create the best coupon and with good discount.

Also, if you want to add more to your referral link, in the “**Referral URL generator**” enter the target path to add even more flavor to your Affiliate link.

Once all the editing is done. Copy your generated link and share it to your target audience and the whole World. Each successful sale generates you a generous profit. Easy.
