

Human Rights Website Project

For the final project for Human Rights, you and a partner are going to be creating a website that talks about all of the different aspects of the topics and ideas we have covered throughout this entire unit.

Website Builders that I recommend:

- Google Sites
- Wix (user friendly)
- Weebly (user friendly)
- Wordpress (a bit challenging to use)
- You can choose one of your choice, just run it past me first!

You are going to create a separate page on your website for of the following topics that have been covered:

1. **Definitions:** Define what Human Rights and Civil Rights are and explain the similarities and differences.
2. **History:** Explain the background leading up to the creation of the Universal Declaration of Human Rights.
3. **Universal Declaration of Human Rights:** Explain who created the Universal Declaration of Human Rights. What are the advantages about the Universal Declaration of Human Rights? What are the disadvantages with the Universal Declaration of Human Rights? Choose 10 of the rights to put into your own words and explain their importance.
4. **Tank Man:** Explain Tiananmen Square and the protest that occurred there. Describe who Tank Man was and why what he did is so significant. Lastly, connect Tank Man and the protests to Human Rights.
5. **Historical Events:** You need to find 5 events that have happened throughout history that have a connection to Human Rights and/or Civil Rights.
6. **Current Issues:** You need to find 5 current issues that are happening around the world that relate to Human Rights.
7. **References:** Make sure to have a list of resources in MLA format that you used for the above information.

For each one of the above pages you are creating on your website, make sure to have images that go along with it (except for the references page).

You will be graded each day, based on your in class participation and what you have completed so far. Make sure you use your time wisely.
