

2.7 - Accusative Plural of Adjectives

You'll need these endings when you modify plural nouns in the accusative with adjectives:

	Masculine Animate	Masculine Inanimate	Feminine	Neuter
Hard stem Adjective	-é velké	-é velké	-é velké	-á velká
Soft stem Adjective	-í mladší	-í mladší	-í mladší	-í mladší

Whenever you need to modify (combine) an adjective with a noun that is the direct object of a verb like *mít* 'to have', then you need to put the adjective in the accusative as well, e.g. -

Bára má dva **malé** psy.
Bára has two small dogs.

Zdeněk má **malé** kočky.
Zdeněk has small cats.

On má dva **starší** bratry.

Pavel má dvě **mladší** sestry.

He has two older brothers.

Pavel has two younger sisters.
