

Dear Parent/Guardian,

This letter is to share with you that, per Minnesota law, all students entering 12th grade in the fall have an additional vaccine that they must have:

- One dose of MCV4 (Meningococcal vaccine)

The requirements apply only for those entering 12th grade and transfer student's that have not previously provided vaccination records. This will be the second dose of the Meningococcal vaccine that your child will receive. If you wish for your child to not receive the vaccine, there is an exemption form that will need to be filled out and provided to the school. If you have any questions, please contact your health care provider.

Sincerely,

Katie Mahrt, RN, BSN, CPN
