

## Demographics: *Development Indicators* (Definition and Comparison)

Define each of the following development-related terms. Look for figures and statistics for each indicator for each of the countries listed. We will find information for the United States, Israel, and Palestine (West Bank and Gaza Strip) together as a class in groups, and you will find the information for your chosen country on your own. Some figures may be distinguished for males and females. Please find the most recent figure or statistic available for each indicator, and document the year and source for each piece of information that you find.

| Development Indicator      | YOUR Definition | Figures and Statistics for USA | Figures and Statistics for ISRAEL | Figures and Statistics for WEST BANK | Figures and Statistics for GAZA STRIP | Figures and Statistics for |
|----------------------------|-----------------|--------------------------------|-----------------------------------|--------------------------------------|---------------------------------------|----------------------------|
