Elective Course Selection - Each box must be completed and have a different choice

	1st Choice	2nd Choice	3rd Choice
Elective			

Middle School Academic Acknowledgements:

- Successful completion of any course that counts for high school credit will be added to the student's high school transcript and will count in the student's cumulative high school grade point average (GPA).
- The add/drop period for an Advanced course is the first two weeks of the course. After that time, Advanced classes may be dropped **ONLY** at the 9-week mark of a course, or at the end of the semester. Also, if a student is earning below a 75% in an Advanced course at the first nine weeks grading period, they will be moved out of the course. The decision to make a schedule change will need to be made between the teacher and parents in the best interest of the student. Campus administration has final approval on all schedule changes.
