Re: Calculators

Date: June 6, 2025

The purpose of this letter is to inform you that all students entering 9th grade in the 25-26 school year are required to purchase their own [TI-84 calculator](#) for use in high school math and science classes. The calculator is an essential tool for success in math classes, utilized at both the high school and college level. Students are permitted to use this handheld calculator on the NJSLA-Math and NJGPA-Math. Please refer to the image below when purchasing your calculator. (This is just an example of the basic option; the CE/plus are also acceptable options.)

Amazon, Staples, and Target are just a few of the retailers who carry the TI-84 calculator.

If you have any questions or concerns, please don't hesitate to contact me.

Sincerely,

Jill Marotta
