Privacy Policy for Local AI Prompt Injector Last Updated: March 2026

1. Data We Collect Our extension interacts with the DOM (Website Content) of specific AI chat applications (ChatGPT, Claude, Gemini) solely for the purpose of injecting user-provided text prompts into the chat interface.

2. We Do Not Store Your Data on External Servers All prompt data is saved locally on your device's hard drive using chrome.storage.local. We do not transmit, upload, or sell your created prompts to any external servers or third parties.

3. Payments We use ExtensionPay to securely process premium upgrades. ExtensionPay handles all payment data on their secure servers. We never have access to your credit card information.
