- Each clan will be allowed to register as many teams as they want but only 2 teams will be accepted in the first part of the registration. We will add any extra teams to a waiting list in case we do not have 64 teams for each competition.
- The first 64 teams to complete the registration will be accepted in the competition, but please if you engage a team you need to be ready to be part of every game of the competition and you engage yourself and your team to have enough players available.
- *Each clans has to register 2 referent to smooth the communication between clan and staff*
- **Megaroster: Unlimited add/move until the day of the draw. After this date, there will be no further changes.**

Scores:

- **The clan with the most stars is designated as the winner (the number of stars prevails over the percentage of destruction).**
- In the event of a star tie, the winning team will be the one with the highest destruction percentage.
