Cake Route By Galtelli

Welcome to the cake guide for Skylanders Imaginators, gathering cake ingredients is something that has to be done in Any% and has a good bit of RNG involved in it but this guide goes over several routes for most possibilities of cake mission outcomes. And optimal ways to go and collect the cake ingredients found on the M.A.P

List of Cake Missions

Here is a list of all the missions Pop Fizz can give you when you talk to him

- Dungeon (Find Blobbers)
- Dungeon (Destroy Detonators)
- Dungeon (Save Plumbers)
- Dungeon (Lava Dungeon)
- Dungeon (Put out Fires)

- Arena (Sal Concert)
- Arena (Stealth Elf Trial by Combat)
- Arena (Eruptor is banned)
- Arena (Trigger Happy)

- Town (Mayor, King, Super King)
- Town (Herd Chickens)
- Town (Bank Robbers)
- Town (Fire)

- Battleship (Destroy Vulture Dropships)
- Battleship (Balloons)
- Battleship (Jellyfish)

- Battlefield (Evil Creationtron)
- Battlefield (Buzz Battletowers)
- Battlefield (Flynn Balloons)
- Battlefield (Destroy Barriers)

(Note: there may be more cake missions which I may have missed, if I have please let me know and I'll add it to this doc)

Upon completing a full set of missions in a given area it will reset to the first mission of that area.

Cake Mission Areas

As seen in the List of Cake Missions there are different types of areas the missions are in each type of area having 2 potential places it can be in

- **Dungeon 1:** This dungeon will always be where the first cake mission you receive will be, and is located next to the undead sensei realm

- **Dungeon 2:** Hopefully one you'll never have to go to in a run is located next to the water sensei realm

- **Battleship:** Battleship is the exact same one you're at the end of the Guacamole Monster boss fight it'll have a lock on it like the other cake levels and will bring you into a different mission other than the Guacamole Monster

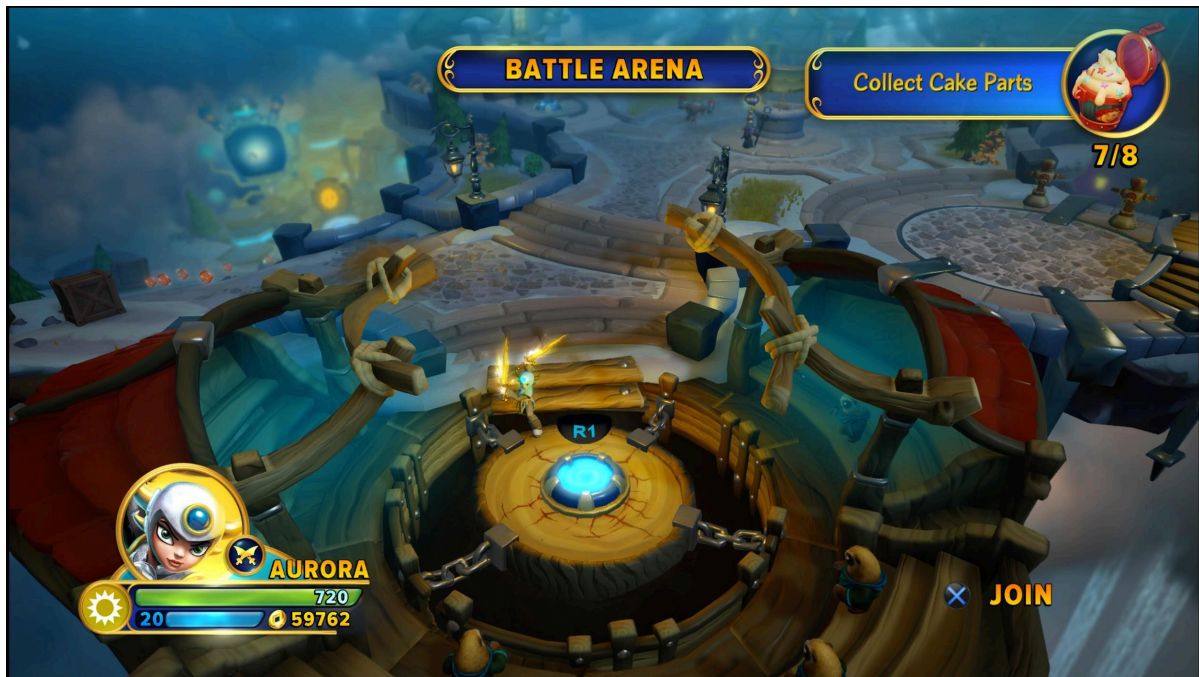

- **Town 1:** Is right beside The Golden Arcade (Chapter 7)

- **Town 2:** Is right next to the light sensei realm

- **Arena:** Is located a little further down from The Golden Arcade (Chapter 7) and beside where you take the flying boat to Dragon Temple (Chapter 8)

- **Battlefield 1:** Is located right next to the earth sensei realm

- **Battlefield 2:** Is located right next to Dragon Temple (Chapter 8)

M.A.P Cake Parts

There are 5 consistent cake parts on the M.A.P (the main hub)

Part 1: Near The Golden Arcade (Chapter 7) you will see a Vulture surprise attack hit the Vulture to start it and defeat all the enemies Flynn will then give you a cake part as a thank you

Part 2: To the left of Scholarville (Chapter 3) there is a tower next to the waterfall just above the first dungeon mission you get and there you'll see the cake part

Part 3: Next to the Battleship you'll see a tnt crate grab it and jump down to the level where the dark sensei realm then place the tnt crate beside the bomb door go inside and you'll find the cake part

Part 4: Underneath the life realm is a pool of water with a cake part in it, there is also a geyser you'll use to go up to the life realm so you can grab the 5th consistent cake part

Part 5: Once you go up to the life realm you'll see another tnt create grab it and bring it to the bomb door to the right of Shellmont Shores (Chapter 4) blow it up and you'll find the cake part

Rat Cake Part

On the M.A.P there are 5 rats that burrow underground into a cave that has either a cake part or an imaginite chest. As of right now the way the game determines wether the hole gives you an imaginite chest or cake part is unknown.

- Cave with imaginite chest

- Cave with cake part

The rats are in the following locations:

- Outside of Card Shack right infront of Pop Fizz

- Over in the area where the DLC levels are

- Outside the Light Sensei Realm

- Outside the bomb door near Dragon Temple (Chapter 8)

- Just over the bridge going over to Scholarville (Chapter 3)

The Route to Take

This part of the guide will go over the optimal path for gathering the cake ingredients.

- Part 1:** Upon completing Dragon Temple, go to Pop Fizz outside of Abandoned Amusement Park (Chapter 9) and talk to him, he will always give you the same 2 missions to start with, an Arena and a Dungeon, go to the Dungeon mission where you must rescue Blobbers, upon finding him he will give you sprinkles for the cake.
- Part 2:** After completing the first cake mission go back to Pop Fizz checking for the rat in front of him and hoping for cake and talk to him once again and he will give you 2 more this time random cake missions, optimally he will give you the Evil Creationtron mission beside the Earth Sensei Realm but if you get the one beside Dragon Temple (Chapter 8) its slightly slower but fine too, after receiving the missions go left and head to Sky Fortress (Chapter 5) and get the cake part from the bomb door below
- Part 3:** Head back down and head towards Shellmont Shores once on that island get the cake part under the Life Sensei Realm, but if you get the Mayor King Super King mission beside the Light Sensei Realm as your fastest option go up there first check the rat (if you didnt previously get cake from it) and do the mission before doing what was previously described (but even if you don't get that cake mission you can check the rat)

- **Part 4:** Use the geyser in the water to head up to Life Sensei Realm and trigger it, you may fall back down if so just use the geyser to head up again and grab the bomb then head to the bomb door to the right of Shellmont Shores (Chapter 4) where the cake part will be inside
- **Part 5:** Use the Canon to go back to the mainland of the M.A.P and if you get the Evil Creationtron mission beside the Earth Sensei Realm do it now, but then after/ if not check the rat over the bridge (if you haven't gotten rat cake already) and get the cake piece from the tower above the Dungeon mission you started with.
- **Part 6:** Head towards The Golden Arcade (Chapter 7) and do the Vulture Surprise Attack and if you got the Mayor King Super King mission there do it aswell
- **Part 7 + 8** should hopefully have been gotten at somepoint during this but if not and you got the Evil Creationtron mission beside Dragon Temple (Chapter 8) use Sharkfin's ship to go there and if needs be check the rat. If you were unlucky and didn't manage to get the rat cake you may need to do another cake mission leading up to a minute + of time loss.
