

MCU Scenes in Chronological Order

Notes

The list below is based on @tonygoldmark's original list with the following modifications and corrections:

- I have added headings of Time (the year or era) for reference.
- I added start and/or stop times to some of the scenes that didn't have them.
- I added the Agent Carter series, Wanda Vision series, and the One-Shots where they go chronologically.
- I added a hyperlink to the movies on YouTube that begins AND ENDS at the precise moment in times. This works IF you own the movie on Google Play or on any account linked with Movies Anywhere (if your Google Play account is also linked). YOU'RE WELCOME. This works IF you own the movie on Google Play or on any account linked with Movies Anywhere (if your Google Play account is also linked). YOU'RE WELCOME.
- I corrected a few start and stop times that were off.

The following needs to be done:

- Figure out missing year/era labels.
- Verify all of the start and stop times are correct.
- Verify the hyperlinks are correct.
- Identify each of the scenes.
- Come up with a way to label what the major scenes.
- Find hyperlink for One-Shots.
- Find hyperlink for One-Shots.
- What is the time setting for the two post credits scenes in Black Panther?
- IS THERE A WAY TO MAKE A PLAYLIST IN GOOGLE/YOUTUBE WITH SET START TIMES?

If you find any errors, the missing information, or ways to solve the above needs, please shoot me a tweet.
