Subject:

Before you begin.

What is the main topic of your research?

What subtopics will you cover?

How long does it have to be?

What will you use your research for? *Write an essay, deliver a presentation, create a product...*

What exactly do I need to find out?

List some questions below. Use the 5 Ws to help you; When, Where, Who, Why, What.

Where am I going to look? *Tip: Use lots of different types of sources, such as encyclopedias, newspapers, books and websites. Try to have a good mixture of primary and secondary sources, as well as information in different formats, for example, written work and videos!*

How can I tell if a source is reliable?

How can I make sure I am academically honest in my research? *What citation style will you use? How will you avoid plagiarism. How will you know if you are allowed to use an image or not.*

How else will you gather information? *Interviews, Surveys, Polls*

What have I found out?

How reliable is this information and why?

Has my research been successful?

Use this checklist to evaluate your research:

All questions written on page 2 have been answered ☐

A range of resources has been used (e.g. websites, books, magazines) ☐

I have a mixture of both primary and secondary sources ☐

Information found is reliable ☐

I referenced all sources properly using my chosen referencing style ☐

Has any unexpected information come up during your research?

Do you need to find out anything else?

Do you feel confident that you have a good amount of useful and reliable information?
