PROCESS:

Send me the next info to preka666@gmail.com:

- Number of characters, and which characters: send me pic references of them, or if you don't have them (because it's an OC or something like that), give me a brief physical description.
- Description of what the characters are doing, if they are interacting with each other (and in which way they are doing it), with a reference pic of the pose (you can look it up in google, any photo or drawing will be ok!)

Once you send me that, I'll check it and tell you if I need something else and if I can do it or we have to change something (I don't think so, but in that case we can just talk about it). If I confirm, I'll send you a **link** via paypal, pix or other service, or my bank info to make the payment.

Once I receive the payment, I'll send you the sketch (will take some days depending on my commission queue). After you see the sketch, we can talk about any change or correction you want me to do. Try to tell me all the corrections you want the first time so I don't have to remake the sketch a lot of times, but there's no problem doing it a few times. I'll only change things on the sketch stage, not later.

Once you approve the sketch I'll continue to clean it and finish it. It will take a few days, depending on how complex the commission is. When I'm done I'll send you the files in 6k.
