

Algebra I Swonger 2020 Calendar of Assignments

WEEK 1	Monday (4/13)	Tuesday (4/14)	Wednesday (4/15)	Thursday (4/16)	Friday (4/17)
	Topic: 7.1 Rules of negative and zero exponents What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: 7.2 Writing exponential functions What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: What to Expect:
WEEK 2	Monday (4/20)	Tuesday (4/21)	Wednesday (4/22)	Thursday (4/23)	Friday (4/24)
	Topic: 7.3 Graphing exponential functions What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: 7.4 Common Ratios and Exponential tables What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: What to Expect:

WEEK 3	Monday (4/27)	Tuesday (4/28)	Wednesday (4/29)	Thursday (4/30)	Friday (5/1)
	Topic: 7.5 percentage growth and decay What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: Review of unit 7 What to Expect: Google form practice on google classroom. 3 Quizzes posted on google classroom.	Topic: What to Expect:	Topic: What to Expect:

May 2020 Calendar of Assignments

WEEK 4	Monday (5/4)	Tuesday (5/5)	Wednesday (5/6)	Thursday (5/7)	Friday (5/8)
	Topic: 8.1 Solving 1 variable inequalities What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: 8.2 Graphing 2 variable inequalities What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom and a Quiz based on	Topic: What to Expect:	Topic: What to Expect:

			the previous lessons.		
WEEK 5	Monday (5/11)	Tuesday (5/12)	Wednesday (5/13)	Thursday (5/14)	Friday (5/15)
	Topic: 8.3 graphing systems of inequalities What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom	Topic: What to Expect:	Topic: 8.4 solving absolute value equations What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through google classroom and a Quiz based on the previous lessons.	Topic: What to Expect:	Topic: What to Expect:
WEEK 6	Monday (5/18)	Tuesday (5/19)	Wednesday (5/20)	Thursday (5/21)	Friday (5/22)
	Topic: 8.5 solving absolute value inequalities What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through	Topic: What to Expect:	Topic: 8.6 graphing 2 variable absolute value equations What to Expect: Google form lesson on google classroom and print out or write out attached assignment and submit through	Topic: What to Expect:	Topic: What to Expect:

	google classroom		google classroom and a Quiz based on the previous lessons.		
WEEK 7	Monday (5/25)	Tuesday (5/26)	Wednesday (5/27)	Thursday (5/28)	Friday (5/29)
	Topic: Project absolute value survey What to Expect: Students watch a google form lesson displaying an example then create their own project with survey	Topic: What to Expect:	Topic: Unit 8/7 Test What to Expect: take a google form test based on the lessons from units 7 and 8	Topic: What to Expect:	Topic: What to Expect:
