Holden Gets Mad About/Feels bad about/Worries about/Feels Happy about...	Therefore, Holden Values...

3. In what way did last night's reading confirm, develop or disprove some of the ideas you discussed last class? Briefly list at least 4 ideas and think about how to incorporate some of these findings into your video.

4. Video

Task: Take everything you have learned about Holden over the last two class periods & Write out a 30 second to 1 minute video as if you were Holden and you were posting a YouTube video for your followers. You can make a transcript below beforehand if you want, but it is up to you.

In the video, have Holden talking naturally, but make sure to answer the following questions:

-What is Holden's philosophy about who OR WHAT deserves kind treatment and who deserves scorn?

-How does his philosophy of people and things contribute to his alienation? (Theme identification practice!)

You can have someone be Holden or you can just do his voice and have the camera focus on something else. You can use whatever movie-making things you want since you guys are better at this stuff than I am. Ultimately, I'd like for you to be able to submit your video to Google Classroom in some way shape or form.
