

Transition Diagram:

Groups of people cannot make agreement on something, they use the device to help them:

- Choice Mode
- Randomness Mode

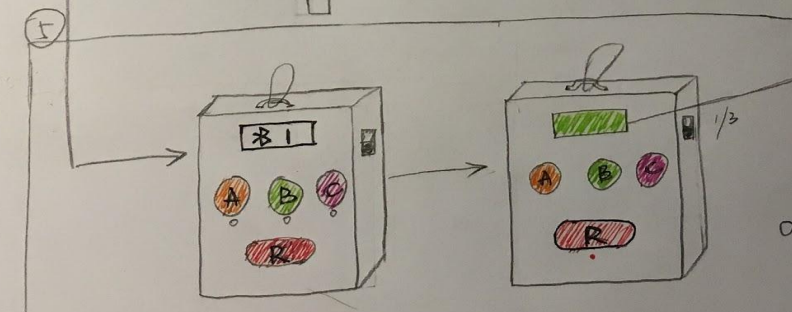

I. Choice Mode: (For important decisions)

Users could also press "Random" to show "all OK"

Results showed on displayer in terms of color which matches the most voted option. Also, your own choice can be showed with a red indicator under your option button

II Randomness Mode: (For unimportant decisions)

Computer will select one and show the result randomly
