

#500ActsforAbortion on August 27th

Goal: To mobilize 500 people to each do an act that supports abortion on Saturday August 27th, and to share their act on Twitter!

Principles:

- Abolition — We believe that the criminalization of abortion needs to be fought in concert with other forms of criminalization.
- Accessibility — We believe that people should have access to safe, affirming abortion care at any stage of pregnancy for any reason.
- Act locally — We believe in prioritizing channeling resources to local abortion funds and clinics who are grounded in community accountability and responsive to people's needs.

Possible Actions:

- Participate in a clinic defense
- Table at your local farmer's market with information about abortion care
- Donate to an abortion fund (You can find a list of funds in each state [here](#))
- Order an item for an abortion provider directly from [this list](#)
- Have a conversation with a friend or family member about why abortion matters and how to support care in your local area
- Donate to an abortion clinic (We love [Partners in Care!](#))
- Make and display an "Abortion is healthcare" or "Abortion is ours" sign or banner and/or distribute them to local businesses and community spaces and ask them to display them
- Connect with organizing community to mobilize an action outside an anti-abortion donor's or politician's home
- Attend a clinic escort or abortion doula training
- Convene a reading group or teach-in around a text that helps us understand where we are and how we got here, such as *Shattered Bonds* by Dorothy Roberts or *Handbook for a Post-Roe America* by Robin Marty
- *Come up with your own idea!* How can you leverage your skills and community to support abortion care?
