# What every successful drop shipper does to make his millions

Most new Dropshippers only think about the money...

They open their store with a good winning product but after some time they wonder why they haven't made any money.

I'll tell you why

It's because your writing isn't engaging. The buyer can feel your Intention which is only their money.

When you make your ad or write your product description you NEED to write it in a way that addresses their pain and tells them that your product can help them.

if you want to learn more about this I made a video where I explain it in depth

If you are willing to learn, I will teach you

# The single BIGGEST mistake new drop shippers make that prevents them from making sales.

You wake up and go to your phone excited to see that you've sold absolutely NOTHING  
you wonder why that is as you have followed everything instructed in the YouTube video  
STEP by STEP

However, if it isn't working you've most likely done something wrong.

That is why you need someone who reviews your product and your website to filter out any missed mistakes
