6/10/2021: These Lists Are Moving

In 2020, I started premiering my lists. These were personal-ish projects, curated by me because of my hyperfixation on LGBTQ+ and MOGAI. These lists were the product of a couple of years of reblogging terms to my sideblogs and collecting them, and I wanted them to be a resource. I chose google docs just because that's what i was personally familiar with, but as these lists grow, the docs become unwieldy.

So, it's time to bring those lists to a more flexible format. Introducing the official Ezgender Wiki!

[Direct link to Wiki](#) | [Join the Discord server for helpers](#)

These lists will no longer be updated after 6/10/2021. After that, any new terms will instead be uploaded directly to the Wiki. These lists themselves will stay in their current state, but I'm not adding new terms. If you want to help ease the process of transferring content, please consider joining the Discord server!

09/07/2021: If you like these lists, please consider helping the guy who made them.

Please help me make rent if you're able. [There's a Tumblr post here where I talk about what's going on in more detail](#), but to put it short: I haven't been able to work, and ran out of resources and need \$550 by October to pay rent.

- here is my [patreon](#), where you get updates on stuff i'm doing before it's posted publicly.
- here is my [ko-fi](#), which has a new updated goal for rent.
- here is my [commissions carrd](#). if you give anything at all, i can make you something in return.
- here is my [linktree](#), where i put a lot of links to different sites i use (like instacart) where you can sign up with my link and it'll give me benefits.

General/Misc

General/umbrella terms for xenogenders related to fiction/media, or xenogenders relating to media that spans multiple types and therefore can't be cleanly placed in the other subcategories.

Fictigender

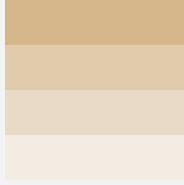

A term for when one's gender is connected to a fictional character(s), a fictional species, or an object, setting, or concept from a work of fiction. It also includes genders that are based on or come from a work of fiction. It can be both used as an umbrella term for a subgroup of xenogenders, or as a standalone term.

Mediagender (Mediafluid)
