It was very interesting

I really liked this project, because here I learned, tried something new, for example, got to know used canva, improved my English skills, worked creatively, I really liked the tasks of this project, the trip to the "Tehnoanna cellars", where I got into the realm of magic, illusions, I got positive, pleasant emotions. I would like to participate in such a project-adventure, because there is an opportunity and experience to work with others.

Es pirmo reizi piedalījies projektā 😊👍 man patika.

Bija interesanti! Patika ekskursija uz Zinātnes centru. Nezināju ka te tik forši

I like it

The project was very interesting and I learned alot! I hope to participate in another project next year.

The tasks were interesting, I learned how to work on different websites. Of course there were difficulties, but I overcame them. Thanks to Solvita. 😊
