

Q.1 Outline the basic data types in R.

Ans. In R, there are 6 basic data types:

- logical.
- numeric.
- integer.
- complex.
- character.
- raw.

Q.2 Write a simple R code to cite an example of the following:

a) Logical

```
v <- c(3,1,TRUE,2+3i)
t <- c(4,1,FALSE,2+3i)
print(v&t)
```

b) Numeric

c) Integer

d) Complex

e) Character
