EXPERIENCE

MrBoilse — Content Creator & Live Streamer Remote

Independent Creator 2023 – Present

- Built and manage a multi-platform live stream channel covering Minecraft, Indian culture, and lofi music with consistent audience growth.
- Handles all content planning, production, and community management independently — developing fast decision-making under pressure.

Shri Krishna Events Jodhpur, Rajasthan

Founder & Decorator 2022 – Present

- Founded an event decoration business handling end-to-end client management, logistics, and on-site execution.
- Developed business branding, social media presence, and a dedicated web platform for the brand.

PROJECTS

- **TrustVault — Advanced Full-Stack Banking & Financial Security Application**
 - Architected a production-grade MERN banking app with end-to-end encrypted money transfers, multi-factor authentication, and role-based access control (RBAC).
 - Engineered RESTful APIs with JWT token auth, bcrypt password hashing, rate limiting, and OWASP-compliant input sanitization to prevent injection and XSS attacks.
 - Built real-time transaction pipeline with fraud detection hooks, atomic MongoDB operations, and audit logs to ensure zero double-spend and full traceability.
 - Technologies: Node.js, Express.js, MongoDB, React.js, JWT, bcrypt, REST APIs — github.com/DashratRajpurohit/TrustVault
- **Developer Portfolio — Personal Portfolio Website**
 - Designed pixel-perfect mockups in Figma and implemented in React with smooth scroll animations, lazy loading, and fully responsive cross-device layout.
 - Technologies: React.js, CSS3, Figma — github.com/DashratRajpurohit
- **Frontend UI Clone Series — Pixel-Perfect Production Website Recreations**
 - Recreated full UIs of Ferrari, Spotify, Amazon, eBay, NotCoin (Crypto), and other production-grade sites with exact layout, animation, and responsive fidelity.
 - Technologies: HTML5, CSS3, JavaScript ES6+ — github.com/DashratRajpurohit
- **Falling Pickaxe — Vibe-Coded Arcade Game**
 - Vibe-coded Python arcade game featuring physics-based falling mechanics, real-time collision detection, and custom Pygame sprite assets and game loop.
 - Technologies: Python, Pygame — github.com/DashratRajpurohit
