

Met Markus during the ClimateTech Annual Summit during a breakout session focused on emerging clean energy solutions.

Provided a 20-minute overview of Earthshot Ventures' mission, current portfolio, and recent investments in solar, wind, and energy storage startups.

Markus expressed interest in early-stage solar and battery startups and asked questions about Earthshot's sourcing strategy and due diligence process.

Shared examples of recent deals and discussed criteria for founder teams and technology readiness.

Markus requested follow-up materials, including a one-page pipeline summary and highlights from our top performing companies.

Exchanged contact details and tentatively agreed to a follow-up call in two weeks to discuss potential co-investment opportunities.
