

Sir Finley Mrrgglton

Hearthstone

Forged with Kristen Ashton and Jocelyn Moffett

Introduction

Found as an egg by Elise Starseeker and raised in the company of humans and dwarf, Sir Finley Mrrgglton is a legend both far and wide. With an upright posture and mastery of Common, this knighted murloc loves a good adventure almost as much as he loves a good tea. Following a near death mishap in Stranglethorn Valley and the reclamation of the Pearl of the Tides, it seems for the time being he has settled down in Stormheim to study the risen dead.

Trait

Age of Discovery

An established explorer, Sir Finley is always sure to carry on him nine of his most favorite treasures. Every so often, Sir Finley is able to activate his trait. When this happens, he switches out his current three power-granting treasures for a random set of new three.

Q

Shapeshift

Each time Sir Finley deals basic attack damage, he gets a shield amount equal to that damage amount.

Dagger Mastery

Sir Finley pulls out an enchanted weapon that makes his basic attacks deal double damage.

Totemic Call

Mrrgglton pulls out a totem and slams it into the ground in front of him. It pulses with energy, sending out waves that heal friendly units and slow enemies.

W

Reinforce

Sir Mrrgglton can either add a new minion to the field or convince an enemy minion to fight on his side while it pushes a lane.

Lesser Heal

A quick heal with a fast cooldown that Mrrgglton can cast on himself and any one of his allies.

Steady Shot

When activated, Sir Finley deals a number of high damage rifle shots that deal the most damage to the closest target and decreasing damage to any behind them.

E

Life Tap

Holding an evil looking relic, Mrrgglton can now suck in life energy from nearby enemies then reactivate it to send out a large burst of healing to his compatriots but wounds him in the process.

Armor Up!

A quick cast with a quick cooldown, Mrrgglton places on himself replicating armor. The more times he casts this ability, the more armor he gets.

Fireblast

Mrrgglton pulls out a staff that summons down a large fireball that deals massive damage to a large area. Once hit, the ground deals small bits of ongoing damage to those standing on it.

R1

Fourteen Dialects

A master of language, Sir Finley enjoys conversation. Upon activation, nearby enemy units and enemies are charmed as they listen to the murloc tell his tales of dashing do. When charmed, the enemies slowly move closer toward him and are unable to activate any abilities or otherwise control their character until the end of the ability.

R2

The Lost Relic

Finley reaches into his bag to pull out one of the relics he's sure will help only to accidentally pull out a fantastical relic made up of all the individual pieces he's been carrying. Now wielding a force of untold power, Sir Finley has access to all of his abilities at once. In addition, all nine are buffed for the duration of this heroic.

Skin

Fin-ry Jones

Though the safari cap may be sharp, it's not as sharp as a bucket cap, bow tie and umbrella.
