

## **Purium's Economic Empowerment Program Scholarships MODULES**

The P.E.E.P.S.council is happy to have you here and we look forward to getting to know you! Below you will find your coursework links and videos. Take one step at a time and move through the modules week by week. If you ever feel confused or lost, lean in and ask. We are here to support you.

The modules are set up for you to move through at the rate of one per week. Do your best to stay on course and be clear in communication if, or when, you have a conflict or life event that may slow you down. The clearer you are in your communication, the easier it is to support you when unpreventable life interruptions occur. That having been said we expect to maintain and keep the pace that we have set.

Part of owning your own business is effectively communicating, planning and managing your time, and it is our goal to set you up for success. We know you will be pleased with the ease and pace of this program and we are wishing you much success on your journey.

We know you are excited about this opportunity and we want to get started off right, so grab your calendar and let's start by blocking out time, for important meetings that will help you learn and grow in the Purium Economy. The best way to get to know Purium is to meet the leaders by tuning in to our training and opportunity calls.
