

Final Project Proposal

1. **Description & Purpose:** Describe your project. What is the value of your project? What are you trying to accomplish? How will it have a social impact?
2. **Scope:** Who is your user? What type of things will the user be able to do within your project? What will the user know after interacting with your project?
3. **Design:** How will you create your project? What will it look like? What assets are you going to create? (sprites, costumes, backdrops, scenes)?
4. **Programming:** What are some of the programming concepts you will apply and challenges you may face? What blocks do you think you will need?
