TABLE OF CONTENTS

1-1 INTRODUCTION: HEAVY AGRICULTURE AND LIGHT INDUSTRY IN SOUTH INDIAN VILLAGES

1. The Impact of the Green Revolution 1972-94.
2. From Green Revolution to Rural Reaction: 1984-94.
3. Trends in Real Incomes and Poverty.
4. From Green Revolution to Rural Industrialisation.
5. The Indian Reforms and Rural Development.

APPENDIX 1: The Selection of Villages and Sampled Households

APPENDIX 2:On Long Term Village Studies

Theoretical Difficulties
Methodological Difficulties
Practical Difficulties
Lack of Value
Lack of Relevance

APPENDIX 3:Paddy Production by Varieties of HYV.

REFERENCES

1-2 IRRIGATION: THE DEVELOPMENT OF AN AGRO-ECOLOGICAL CRISIS

1.Introduction

2. The Traditional Irrigation Systems of the Study Villages

2.1 Traditional Irrigation Institutions

History
Maintenance
System of Water Sharing

2.2 Neerhattis / Thotti (Irrigation Workers)

2.3 Traditional Irrigation Institutions

Present Status

Physical Condition

Status of the Irrigation Organizations

3 Reasons for the Decay of Traditional Irrigation Institutions

4 The Groundwater Status of the Study Villages

5 The Impact of the Secular Lowering of the Water Table on the Agrarian Economy

5.1 Effect on Agriculture

5.2 Cost Implications

5.3 Institutional Implications

6 Summary and Conclusions

1-3 TIME AND SPACE: INTER VILLAGE VARIATION IN THE NORTH ARCOT REGION AND ITS DYNAMICS 1973-1995

1 Introduction

2 Village Typologies: a Review

3 Methodological Problems in the Current Study

4 Demographic Trends

4.1 Migration

4.2 Human Development

5 Variation in Agriculture

5.1 Trends in Agrarian Class Composition

5.2 Cropping Intensities

5.3 Irrigation Intensity

5.4 Cropping Pattern

5.5 Employment Patterns

5.6 Trends in Wages and Earnings

5.7 Per Capita Income and Liabilities

6 Identifying Dimensions of Inter-Village Variation and Classification of Villages
6.1 Factor Analysis
6.2 Hierarchical Cluster Analysis
7 Conclusion

APPENDIX 1: Analysis of Clusters

1-4 SOCIAL STRATIFICATION AND RURAL HOUSEHOLDS
1 Introduction
2 The Characteristics of Clustering Techniques
3 The Cluster Analysis of the 1993 Village Re-Census of Households
4 Variables and Method
4.1 Land Variables
4.2 Tenurial Variables
4.3 Income and Wealth Variables
4.4 Variables Revealing the Organisation of Production
4.5 Market Dependence Variables
4.6 Household Demographic Variables
5 The Structure of the Fusion Process
6 The Analytical Zoom Lens
7 The Two Clusters Classification
8 The Six Clusters Classification
9 Fine Grained Stratification
10 A Re-Classification of the Village Households
11 Land Relations and Economic Stratification
12 Intra Village Diversification and Inter Village Variation
13 Caste and Female Headed Households
13.1 Caste and Household Groups
13.2 The Distribution of Assets by Caste

13.3 Distribution of Land by Caste

14 Gender and Economic Resources

14.1 Female Headed Households

15 Conclusions

1-5 LABOUR, GENDER RELATIONS AND THE RURAL ECONOMY

1 Introduction

2 Labour in Agricultural Production

2.1 The Gender Divisions of Agricultural Labour.

2.2 Agricultural Wages

2.3 Gendered Contributions to Household Income

3 Labour in Non-Agricultural Production

3.1 Wage Work

3.2 Unwaged Work

4 The Private Gendered Appropriation of Income

5 Conclusions: *plus ça change, plus c'est la mLme chose*

1-6 SOCIAL INSTITUTIONS AND THE STRUCTURAL TRANSFORMATION OF THE NON-FARM ECONOMY

1 Introduction

2 An Analytical Framework

3 Sources of Data

4 The Non-Farm Village Economy

5 Distribution of Workers by Industrial Classification

6 Conclusion

2-1 POLICY FOR AGRICULTURAL DEVELOPMENT AND SOCIAL WELFARE

1 What is Policy?

2 The Composite Agricultural Agenda and its Significance for Development

2.1 Fast track Liberalisation

2.2 Creative Globalization

2.3 Tamil Nadu's Agricultural Policy Agenda - the Garden

2.4 Interpretations

3 Situating our Policy Research in the Policy Framework

2-2 INFRASTRUCTURE, MARKETS AND AGRICULTURAL PERFORMANCE

1 Infrastructure

1.1 Agricultural Rand D

1.2 New Infrastructure

1.3 Electricity

2 Agrarian Markets

2.1 Land

2.2 Water

2.3 Money and Credit

2.4 Labour

2.5 Inputs

2.6 Products

3 'Equity': The Add-on

4 Agricultural Performance in Tamil Nadu

4.1 The Supply Response of Paddy

4.2 Data

4.3 The Supply Response of Groundnut

4.4 Data

4.5 The Supply Response of Rice in Undivided North Arcot

District 1981-2 to 1992-3

5 Conclusions

2-3 ACCESS TO INFRASTRUCTURE AND LOCAL UTILITIES

1 Introduction

1.1 Planned Provision

1.2 Market Provision

1.3 Community and Household

1.4 Institutional Combinations

1.5 Public Action

2 Rural Infrastructure

2.1 Drinking Water

-Provision

-Maintenance

-Access

2.2 Sanitation

-Provision

-Access

3 Local Urban Utilities

3.1 Drinking Water

3.2 Drainage and Sanitation

3.3 The Fire Service

3.4 Garbage and Waste

4 Conclusions

2-4 POPULISM AND ELECTRICITY IN RURAL TAMIL NADU

1 Introduction

2 Power Scenario and Consumption Pattern of Electricity in Tamil Nadu

3 The State Subsidy to the Agricultural Sector (for Agricultural Pump Sets) in Tamil Nadu

4 The Rationality of Free Supply of Electricity to Farm Pump Sets. Some Village-Level Evidence

5 Summing Up

2-5 RURAL CREDIT

1 Agricultural Credit Policy

2 Collateral

3 Evolving Credit Relations in the Region

4 Local Planned Credit

5 Moneylending in the Villages, 1993-4

Vinayagpuram

Nesal

Veerasambanur

6 Access to Money

IVV in Access

Social Characteristics and Access

Economic Resources and Access

7 Flows of Money

By Villages

By Social Characteristics

By Economic Characteristics

8 Sources of Money

9 The Uses of Credit

Purposes

By Disadvantaged Social Groups

10 The Terms and Conditions of Borrowing

Interest Rates

Collateral

Collateral and Interest by Source

11 Conclusions

Policy - 1 - Deregulation

Policy - 2 - Collateral Questions

2-6 FERTILISER REFORMS AND NUTRIENT BALANCES

1. Background
2. Fertiliser Use in the Old North Arcot District, Tamil Nadu
3. Fertiliser in the Villages
4. The Response of Paddy Production to Nutrients, Environmental and Social Variables

4.1 Total Nutrients

4.2 Elasticities

1.1 Conclusions

APPENDIX 1: Units, Weights and Nutrients Values of Chemical Fertiliser and Organic Manure

APPENDIX 2: Responses of Paddy Production to Nutrients, Environmental and Social Factors

3-1 ANTI-POVERTY POLICY: TARGETING AND SCREENING FOR ELIGIBILITY

1 Introduction

2 Class Probability Trees and Rules

3 Data

3.1 Source of Data

3.2 The Constructions of Variables

3.3 Method of Analysis

-Training and Test Sets

-Error Rate of Rules Obtained

-Tree and Rule Construction

4 Results and their Interpretation.

Poor and Potentially Non-Poor Households

Income Poor Rule

Income Non-Poor Rule

Income Distortion or Mis-estimation or TYemporary Alteration

Mistakes

Limits to Predictability

5 Further Analysis

Income Poor Rule Income Non-Poor Rule

-Caste Status

-Gender of the Head of the Household

-Demographic Variables

-Illness

-Assets

-Variables Describing the Dwelling

5 Contributions and Shortcomings

APPENDIX 1: Details of Class Probability Tree Analysis

Rule Set

-Rule 1

-Rule 2

-Rule 3

3-2 LIFE CHANCES: DEVELOPMENT AND FEMALE DISADVANTAGE

1 Introduction

2 Theories of Intrahousehold Distribution

2.1 The Unitary Model

2.2 The Bargaining Model

3 India and Tamil Nadu in the 1990s

4 The Evidence

4.1 Ambedkar and Tiruvannamalai Districts

4.2 Ambedkar and Tiruvannamalai - Poverty versus Wealth

(a) Landholdings

(b) Land Value, Total Wealth

(c) Female and Male Labour Force Participation

(d) Education

5 So What for Policy?

3-3 INCAPACITY AND DISABILITY

1. Introduction
2. Disability and the Life Cycle
3. Disability and Gender
4. Disability and Poverty
5. Disability and the Environment
6. The Response of the State
7. Incapacitation in the Rural Economy

8. Incidences, Types and Causes
9. The Social Construction of Disability
10. Treatment and Response
11. The Impact on Households and on the Rural Economy
12. Disabled People's Needs
13. Public Action
14. Conclusion

3-4 FOOD, NUTRITION AND THE STATE IN NORTHERN TAMIL NADU

1 The Policy Impasse

2 Rural Nutrition in Tiruvannamalai District of Northern Tamil Nadu over Two Decades

Incomes and Food Expenditures

Household Energy and Protein Consumption

Energy Deficiencies

1.2 BMR

80%RDA

3 The Impact of Changes in Income, Prices and Household Factors on Food Consumption

Poor Landholding Peasants

Landless Labouring Households

4 The Role of the Public Distribution System in Nutrition

5 Access to the Nutritious (Noon) Meal Scheme

6 Energy from Alcohol

7 Conclusions

3-5 NO END TO THE BETRAYAL? PRIMARY EDUCATION IN SOCIAL CONTEXT : EVIDENCE FROM RURAL TAMIL NADU

1 Education Policy

2 Factors affecting a Child's Education

Age

Health and Disability

Gender

Size and Composition of the Household

Wealth and Class Position

Parental Education, Class and Caste Status

Child Ability

3 Education in the Villages

Caste

Parental Education

Other Factors

4 A Model of Primary Completion

Data

Discussion

5 Conclusions

3-6 SOCIALLY INCLUSIVE SOCIAL SECURITY: SOCIAL ASSISTANCE IN THE VILLAGES

1 State Mediated Protective Social Security

2 Protective Social Security and the Market

3 Protective Social Security and the Household

4 Social Security and Structural Adjustment in Tamil Nadu

5 Social Security in the Three Villages

Pensions

Eligibility and Targeting

Eligible Non-Beneficiaries

Old Age and Need

Widows' Pensions

Maternity Assistance

6 Conclusions

4-1 SO WHAT FOR POLICY? RURAL DEVELOPMENT IN A POOR STATE

1 Policy Conclusions

2 Policies and Politics

3 State Capacity, Local Level Governance and Institutional Scarcity

4 Corruption

5 Powerful Clients and the Low Profile Politics of Local Capital

6 Tax Evasion

7 Structural Adjustment and the Paradox of Corruption

8 Real Structural Adjustment and the Indian Bureaucracy

9 What is to be Done?

10 Box: Summary of the Public Affairs Centres Agenda to Counter Corruption

1.1 Reform to the Indian State

1 Politics

2 Bureaucracy

3 Regulative Law

1.2 Reform to Society

4 Social Empowerment

5 Popular Regulation
