

Hi THENX

I came across your most recent YouTube video I must say it amazing how well you structure your socials.
I am contacting you after coming across your THENX membership.

I particularly like your drive to get young men in good shape and show the desire in men to get in shape no matter the circumstances whether they have access to a gym or not.

However, your Presence on Facebook could be improved to be as good as your yt in addition your advertisement on Facebook could have an even more powerful impact on your audience, which would optimise traffic to your website by generating more sales

After analysing your competitor's marketing strategy. i have some ideas for achieving your goals.

Would you like to discuss things further on a google meet?

Wishing you a great day

Essey
