

SL: Your Online Visibility

Hey Ali,

I recently found Earth Harbor on Instagram while looking for skincare products.

The post where you show the product's manufacturing process shows how much you care about being honest with your audience. I'm sure they appreciate your message.

Your brand's authenticity reminded me of Neutrogena, a skincare industry leader known for their effective advertising strategies. Their approach has significantly increased their audience engagement and conversions.

Below, you can find a personalized document aimed at amplifying Earth Harbor's online visibility and driving more product sales.

Would you like to go over it?
