

Attend our Math Teachers' Circle!

The Community of Adult Math Instructors (CAMI) is a group of teachers in adult education who come together once a month to do math, discuss teaching, and make connections with teachers from across the country. We believe in the power of teachers doing and learning math together.

CAMI holds monthly meetings, generally conducted online through Zoom. All are welcome, no matter how much experience you have with math.

For alerts of upcoming meetings, complete a short form at <https://bit.ly/joinCAMI>.

Visit nyccami.org for more information about CAMI. You can read notes from previous meetings and see past problems. Email info@caml.org for more info.
