## Agenda Topics

**Consent API** (added by @aduth, @garrett-eclipse)

- Feature Plugin Proposal:  
<https://make.wordpress.org/core/2020/04/01/feature-plugin-proposal-wp-consent-api/>
  - Context: <https://github.com/rlankhorst/wp-consent-level-api/issues/50>
  - Discuss: JavaScript APIs for accessing and updating consent
    - See also: “Technical Scope” of [proposal post](#)
  - Specifics
    - Proposed to store user preference using cookies
    - Need to support extension by multiple plugins
    - Values available on the server and in the client (front-end)
    - Need to be able to respond to user changes in consent
-
