new dynamics of ageing
a cross-council research programme

Ageing and Biology

NDA project full title: A Combined Genetic & Small Molecule Approach to Studying the Role of p38/MK2 Stress Signalling Pathway in Human Premature Ageing Syndrome

PI: Mark Bagley

Publications

1. Davis, T., Dix, M.C., Rokicki, M.J., Brook, A.J.C., Widdowson, C.S., Kipling, D. and Bagley, M.C. (**2011**) Investigating the role of c-Jun N-terminal kinases in the growth of Werner syndrome fibroblasts using diaminopyridine inhibitors. *Chem. Cent. J.* 5: 83.
2. Use of p38 MAPK inhibitors for the treatment of Werner syndrome. Bagley, M. C.; Davis, T.; Murziani, P. G. S.; Widdowson, C. S.; Kipling, D. *Pharmaceuticals* **2010**, *3*, 1842-1872.
3. The contribution of biogerontology to quality ageing. Bagley, M. C.; Davis, T.; Latimer, J.; Kipling, D. *Quality in Ageing and Older Adults* **2011**, *12*, 26-32.
4. Ageing science, health care and social inclusion of older people. Bagley, M. C.; Davis, T.; Latimer, J.; Kipling, D. *Quality in Ageing and Older Adults* **2011**, *12*, 11-16.
5. The motility of the ethical in bioscience: the case of care in anti-ageing science. Puig de la Bellacasa, M.; Latimer, J. *Law Ethics and Society*. Vol. V (2011), in review.
