

Atom Model Drawing Name_____

Using your periodic table, determine the number of subatomic particles in each atom and then draw and label a Bohr Model for each of the first 20 elements. It should be easy to know which particles are which in your models.

1. Element _____ Protons Neutrons Electrons	2. Element _____ Protons Neutrons Electrons
3. Element _____ Protons Neutrons Electrons	4. Element _____ Protons Neutrons Electrons
5. Element _____ Protons Neutrons Electrons	6. Element _____ Protons Neutrons Electrons

7. Element _____

Protons
Neutrons
Electrons

8. Element _____

Protons
Neutrons
Electrons

9. Element _____

Protons
Neutrons
Electrons

10. Element _____

Protons
Neutrons
Electrons

11. Element _____

Protons
Neutrons
Electrons

12. Element _____

Protons
Neutrons
Electrons

13. Element _____

Protons
Neutrons
Electrons

14. Element _____

Protons
Neutrons
Electrons

15. Element _____

Protons
Neutrons
Electrons

16. Element _____

Protons
Neutrons
Electrons

17. Element _____

Protons
Neutrons
Electrons

18. Element _____

Protons
Neutrons
Electrons

19. Element _____

Protons
Neutrons
Electrons

20. Element _____

Protons
Neutrons
Electrons
