We all play IMVU. IMVU is a fun game to play. I myself play IMVU because i think it's a great platform to socialize. Well i liked playing IMVU but i needed credits in order to get the items that i wanted. Playing the game without credits was kind of fun but i wanted a better experience. I decided to make a way on how to Generate IMVU Credits. I looked all over and couldn't find a thing on how to do this. So i went back to my original plan and decided to make a generator.

The way i made the IMVU credit generator is by using my experience of getting credits on IMVU. It took me a little over 2 months to make this generator but i think it was worth it since i use it almost everyday. At first i was making about 100 credits a day sometimes in a week. But now i find myself making about 30,000 IMVU credits in a day.

Hi, 💰 310,580 credits 💰 2,500 promo credits

If you want this generator you can simple download it on this page. It is free and can shared with anyone that you wish. Also if this IMVU credit generator doesnt work i will always update the generator and make sure that everything is working. Enjoy.
