6. COOKIES AND OTHER TRACKING TECHNOLOGIES

Cookies Policy

Effective as of: March 17th, 2030

Our Services use cookies, which are small text files that are placed on your computer or device by a web server when you access our Services. We may place and access cookies and similar technologies on your computer or device, which are known as “first party cookies.” Cookies may also be placed and accessed by third parties, which are known as “third party cookies” and are described below.

We use cookies and local storage to monitor aggregate usage and web traffic of our Services, customize and improve our Services, help you navigate our Services, deliver content specific to your interests and deliver advertisements to you.

We also use “web beacons” (also known as web bugs, pixel tags, or clear GIFS) which are small graphics with a unique identifier that may be included on our Services, for example to deliver or communicate with cookies, to track and measure the performance of our Services, to monitor how many visitors view our

Services, and to monitor the effectiveness of our advertising. Unlike cookies, which are stored on a user's hard drive or device, web beacons are typically embedded invisibly on web pages (or in an email).

A comprehensive list of cookies used, including their purposes, durations, and third-party operators, is available at [<https://gomojocoins.com/>]. You may manage cookie preferences via our Cookie Consent Manager at [<https://gomojocoins.com/>].

Types of Cookies

We use the following types of cookies:

- **Strictly Necessary Cookies:** These are cookies that are essential to enable you to use the Services, for example moving around our website and using its features (e.g. cookies that enable you to log into the Services).
- **Performance Cookies:** These are cookies which collect information about how and when you and other visitors interact with our Services (e.g. pages viewed most often) and the information collected by these cookies is used to improve how our Services work.

For example, providing you with relevant content by using a cookie to remember which region you are in.
- **Advertising Cookies:** These are cookies which are used to deliver advertisements to you which are more relevant to you and your interests. We may also share this type of information with third parties for these purposes.

The types of cookies described above may be “session cookies” or “persistent cookies.” Session cookies are only stored on your device while you are using the Services and are deleted when you log off from the Services or close your browser. Persistent cookies remain on your device for a period of time after you log off from the Services or close your browser.

Third Party Cookies

Some cookies may be placed by third parties when you use the Services as some third-party service providers that we engage (including third party advertisers) may place their own cookies on your hard drive or device. These cookies may provide information to those third parties about your browsing habits or may be used for security. Some also help to serve you with advertisements which are more relevant to you.

Google:

For example, our websites use Google Analytics, a web analytics service provided by Google, Inc. (“Google”). Google Analytics uses non-operational cookies, which are text files placed on your computer or device to help the website or app analyze how visitors use the website or app. The information generated by the cookie about your use of the website or app (including your IP address) will be transmitted to and stored by Google on servers in the United States. At our request, Google will use this information for the purpose of evaluating how the website or app is used, compiling reports on website/app activity for operators and providing other services relating to website/app activity and

internet usage. Google may also transfer this information to third parties where required to do so by law, or where such third parties process the information on Google's behalf.

Facebook:

Similarly, we use the Facebook pixel service. The Facebook pixel is an analytics tool that allows us to measure the effectiveness of our advertising by understanding the actions you take on other websites or apps. We use it to make sure our advertising on Facebook is shown to the right people and is effective. When you visit our website or app and take an action, this triggers the pixel which reports this action to Facebook.

By using our Services, you consent to the processing of data about you by Google and Facebook in the manner and for the purposes set out above.

Cookies Settings

You may decline cookies that are not Strictly Necessary by clicking "Decline" in the cookie banner at the bottom of your screen. However, if you don't accept cookies, you may not be able to access all portions or features of the Services. If you continue to use the Services, you consent to our use of cookies as described in this Cookies Policy.

Do Not Track Signals

Your browser settings may allow you to transmit a "Do Not Track" signal when you visit various websites. Like many websites, our Website is not designed to respond to "Do Not Track" signals received from browsers. To learn more about "Do Not Track" signals, you can visit <http://www.allaboutdnt.com/>.

Cookies and Other Tracking Technologies

Most browsers accept cookies automatically, but you may be able to control the way in which your devices permit the use of Tracking Technologies. If you so choose, you may block or delete our cookies from your browser; however, blocking or deleting cookies may cause some of the Services to work incorrectly or not function at all.

7. THIRD PARTY WEBSITES AND LINKS

You also have the right to request that we delete the Personal Data we have collected from you.
- I.** Exercising Access and Deletion Rights. To exercise the access and deletion rights described above, please submit a verifiable consumer request to us by contacting us as set forth below. Only you or a person registered with the California Secretary of State that you authorize to act on your behalf may make a verifiable consumer request related to your Personal Data. If you decide to use an authorized agent, please also include written

permission that you have designated that agent to make this request, or proof of the agent's power of attorney. We may follow up with you to verify your identity before processing your authorized agent's request. You may also make a verifiable consumer request on behalf of your minor child.

In order for your consumer request to be verifiable, you must provide sufficient information that allows us to reasonably verify you are the person about whom we collected Personal Data or an authorized representative. You will need to provide: (1) full name; (2) date of birth; (3) address; (4) email address; (5) whether you are a California consumer pursuant to CCPA; (6) if you would like to know the specific pieces of Personal Data that we have collected about you, or to delete your Personal Data; (7) identification that clearly shows your name, date of birth and address (for example, passport or other photo identification); and (8) describe your request with sufficient detail that allows us to properly understand, evaluate and respond to it.

- J. Verifiable Consumer Request. We cannot respond to your request or provide you with Personal Data if we cannot verify your identity or authority to make the request and confirm the Personal Data relates to you. Making a verifiable consumer request does not require you to create an account with us. We will only use Personal Data provided in a verifiable consumer request to verify the requestor's identity or authority to make the request.
- K. Response Timing and Format. We endeavor to respond to a verifiable consumer request within 45 days of its receipt. If we require more time (up to 90 days), we will inform you of the reason and extension period in writing. If you have an account with us, we will deliver our written response to that account. If you do not have an account with us, we will deliver our written response by mail or electronically, at your option. Any disclosures we provide will only cover the 12-month period preceding the verifiable consumer request's receipt. The response we provide will also explain the reasons we cannot comply with a request, if applicable. For data portability requests, we will select a format to provide your Personal Data that is readily useable and should allow you to transmit the information from one entity to another entity without hindrance. We do not charge a fee to process or respond to your verifiable consumer request unless it is excessive, repetitive, or manifestly unfounded. If we determine that the request warrants a fee, we will tell you why we made that decision and provide you with a cost estimate before completing your request.
- L. Your "Do Not Track" Browser Setting. Some web browsers incorporate a Do Not Track ("DNT") feature that signals to websites you visit that you do not want to have your online activity tracked. Our website may not respond to DNT signals. We may allow certain third-party advertising partners to place tracking technology, such as cookies and pixels, on our Services. This technology allows us and/or third parties to collect personally identifiable information about your online activities over time and across different websites.
- M. No Discrimination Policy. We will not discriminate against you for exercising any of your CCPA rights.
- N. Updates to Notice. This Notice may be updated from time to time to reflect changes in the Services or how the Services are regulated. We will notify you of changes by posting changes here, or by other appropriate means. Any Personal Data we collect is covered by
