

Privacy Policy for VideoStack

Last updated: December 29, 2024

Overview

VideoStack is a Chrome extension that helps you manage a queue of YouTube videos to watch later. We are committed to protecting your privacy.

Data Collection

VideoStack does **NOT** collect, store, or transmit any personal data.

What we store locally:

- **Video URLs and titles** - Stored only on your device using Chrome's local storage API
- This data never leaves your browser

What we do NOT collect:

- No personal information
- No browsing history
- No analytics or tracking
- No cookies
- No data sent to external servers

Permissions Explained

VideoStack requests the following permissions:

- **storage** - To save your video queue locally on your device
- **tabs** - To detect when you're on a YouTube page and get the current video URL
- **activeTab** - To interact with the current YouTube tab when using keyboard shortcuts
- **contextMenus** - To add "Add to VideoStack" to your right-click menu
- **Host permission (youtube.com)** - To enable Alt+Click functionality on YouTube thumbnails

Data Sharing

We do not share any data with third parties because we do not collect any data.

Changes to This Policy

We may update this privacy policy from time to time. Any changes will be reflected in the "Last updated" date.
