About The Aya Center:

Our Mission

The Aya Center was founded upon the belief that children and adults experiencing emotional and behavioral challenges deserve the opportunity to experience optimal health and to live at their maximum level of functioning when Community Supports and Therapeutic services are appropriate and available.

We further believe that support services should be family-centered, driven by the wishes and goals of the consumer and their family and that the consumer's home or community provide the best environment to learn and achieve long-term independence and self-sufficiency.

The Aya Center is seeking licensed clinicians to provide services in Durham and Wake County. The clinician will be responsible for providing Outpatient Therapy and Intensive In-home services to students and their families. Clinician must be fluid with formulating diagnosis by completing a Comprehensive Clinical Assessment. Clinician must also develop personalized treatment plans for students; as well as provide case management and recommendations for students who need more than standard Outpatient Therapy.

Clinician must be familiar with the use of Evidenced-Based Practices, such as Cognitive Behavioral Therapy and Motivational Interviewing, to help assist students with reaching their behavioral goals.
