PROFESSIONAL SUMMARY

UI/UX Designer with 3.5 years of experience designing SaaS, ERP, EdTech, and B2B platforms for international clients across the US and Europe. Owns the full design process end to end, from user research and workflow mapping to wireframes, interactive prototypes, and reusable design systems in Figma. Known for translating complex business logic into clear, usable interfaces and for incorporating AI-driven workflows into product design. Trusted by stakeholders and client teams to lead redesigns, run review sessions, and ship interfaces that are adopted in day-to-day operations.

WORK EXPERIENCE

UI/UX Designer

Bylidd | Remote | Sep 2024 - Apr 2026

- Served as the sole designer for three concurrent international client products, owning the complete design process from research and workflow mapping through to high-fidelity handoff in Figma.
- Designed Eisele, a German ERP SaaS platform, from the ground up, producing workflow diagrams, low- and high-fidelity wireframes, and a reusable design system that gave the build a consistent foundation.
- Designed AI configuration settings, insights dashboards, and AI-assisted text optimization screens for Eisele, simplifying complex business data into interfaces the client's office team uses in daily operations.
- Led multiple structured redesign cycles based on direct German stakeholder feedback, securing approval and adoption while reducing back-and-forth through clearer review documentation.
- Designed high-fidelity interfaces and interactive prototypes for Pitufu, an EdTech platform, improving the clarity and ease of the learning experience based on client feedback.
- Executed a complete UI redesign of VnB Business Brokers, a buyer-seller acquisition platform, restructuring user flows and delivering detailed prototypes that streamlined the acquisition journey.
- Presented design solutions directly to international clients and facilitated review sessions, consistently translating stakeholder feedback into changes that earned client sign-off.

UI/UX Designer

Forty4 Technologies | Hyderabad, India | Feb 2024 - Jun 2024

- Led the end-to-end redesign of Rentojoy, a rental marketplace, delivering a fully modernized interface within a one-month timeline.
- Built a library of reusable Figma components, wireframes, and prototypes that gave the platform a consistent visual system and sped up future design work.
- Designed responsive, user-centered interfaces across fintech (Cash Connect), retail and e-commerce (Zylk Fabrics), jewelry (Varahi Jewels, Mayuka Silver), and events (Classic Halls).
- Established design systems for multiple projects and prepared structured developer handoff, reducing implementation ambiguity for engineering teams.
- Delivered all projects to client satisfaction within tight agency timelines, balancing several deliverables in parallel.

Associate UI/UX Designer

DevRiser LLC | Delaware, USA (Remote) | Oct 2023 - Feb 2024

- Designed an end-to-end courier management application with separate, role-tailored interfaces for administrators and delivery agents.

- Improved parcel tracking and delivery workflows by mapping operational needs into clear, task-focused screen flows.
- Produced interactive mockups and responsive website designs for marketing campaigns, ensuring a consistent experience across screen sizes.
- Collaborated with the product team to iterate designs based on feedback, keeping deliverables aligned with business goals.

UX/UI Design Intern

TriMindTech Solutions | Hyderabad, India | Apr 2023 - Jul 2023

- Led the redesign of the in-house e-Procure platform, improving usability and simplifying procurement workflows for internal users.
- Revamped Singapore Courts web screens with a focus on accessibility, clarity, and intuitive navigation.
- Built design systems, wireframes, and interactive prototypes that ensured visual consistency and smooth developer handoff.
- Contributed to design reviews and incorporated feedback into iterative improvements across multiple screens.

UI/UX Designer Intern

AjileDone Technologies | Gurugram, India | Feb 2022 - Sep 2022

- Contributed to the design of Sloka, an ERP software product, collaborating with cross-functional teams on interface and workflow design.
- Created intuitive workflows and interface layouts that translated complex ERP requirements into usable screens.
- Supported the design team with wireframes and prototype iterations, building a foundation in enterprise product design.

EDUCATION

B.Tech in Civil Engineering

Guru Nanak Institutions Technical Campus, Hyderabad | 2016 - 2020

Intermediate (Class 11 & 12)

Gyan Vigyan Academy, Dibrugarh, Assam | 2014 - 2016

HSLC (Class 10)

Sophy Mercy Memorial School, Sivasagar, Assam | 2014

CERTIFICATIONS & TRAINING

Professional Bootcamp in UX/UI Design — Designboat | Aug 2022 - Jan 2023

UI/UX Design Workshop (5 Weeks) — Kaarwan | Dec 2021 - Jan 2022

SKILLS

UX Design: User Research, Usability Testing, Wireframing (Low & High Fidelity), Information Architecture, Interaction Design, User Flows, Design Thinking, Behavioral Psychology

UI Design: Visual Design, Prototyping, Design Systems, Responsive Design, Accessibility (WCAG), Component Libraries, Mobile & Web UI

Specializations: SaaS Product Design, ERP & B2B Platform Design, AI-Driven Workflows, Dashboard & Data Visualization Design, End-to-End Product Design

Tools: Figma, Framer, Visly, Notion

Collaboration: Stakeholder Management, Client Communication, Design Presentation, Feedback Handling, Cross-Functional Collaboration, Developer Handoff, Agile Workflow
