Standard- 1.1 : DEMONSTRATE GENERAL LAB SAFETY RULES AND PROCEDURES

Indicator- 1.0: IDENTIFY LAB ORGANIZATION AND SAFETY PROCEDURES

Pre Assessment	Post Assessment	MAS	Student Friendly Learning Targets	Evidence of Learning	Score	Date
		Deeper Learning	Students will be able to handle tools and equipment in the shop safely.			
		Proficient 3	Performance Standards- 1.1.1-1.1.19 I will understand the importance of maintaining a safe working environment at all times in the shop. I will know what tools and equipment are used for.			
		Developing 2	I can describe safety rules and procedures but do not remember them all. I have an understanding of what PPE, tools and equipment are but still learning how to use them.			
		Emerging 1	I am new to this industry and will need the assistance of my teacher with this. .			

Learn About It!
