

Hey Sam

All of my friends are into dropshipping so I went on youtube to get to know better what it is. I saw your video about 10 winning dropshipping products. There were some really interesting products like the dog bed. I see how this would help your audience make 700+/day.

I went to your site to see what services you provide, I subscribed to your newsletter because I wanted to learn more about your business. From the first look at your emails, I have some ideas that could make the email bring, more curiosity to the reader:

I went ahead and put together a free email you can use so that you can increase your sales. I am going to paste it below.

If you like it I have a few more ideas on how to increase your sales and the views on your youtube channel.
