Specialist Changing Class Name in Seesaw

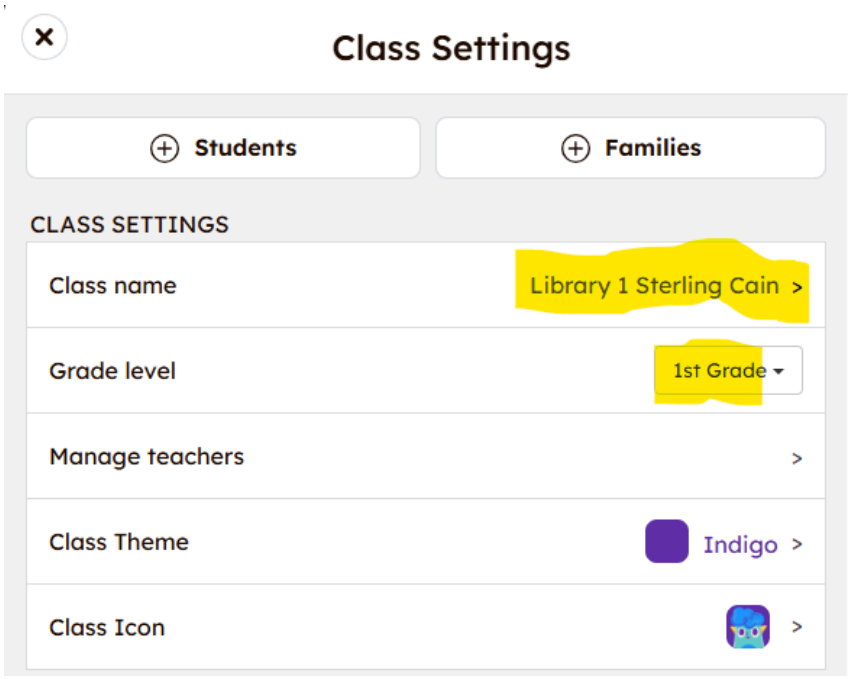

It is helpful to have your classlists as you are doing this. Seesaw names are alphabetical by FIRST name, so as you are looking for students, be aware the list from Powerschool and the Seesaw roster won't look exactly the same.

Open the class

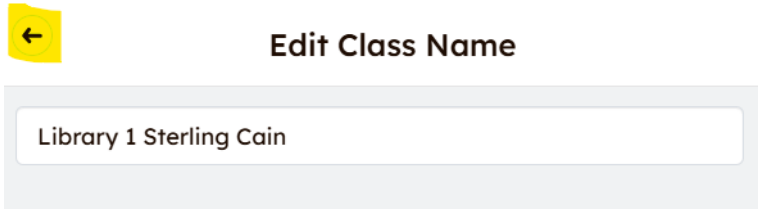

Go to the Wrench in the upper left by your name

Open the Class name using the >

Change name (Start with the content as parents don't see the whole name on the app, also be sure your name is included)

Use the arrow in the upper left to back out

Done Name is changed
