Nipler

"What the fucking kind of word is this?" you may say. Well, I coined it today because it's based on an inside joke.

Definition: A slur for bullies.

Where did it come from? While I was asking my friend to draw Mayia, I provided a back-facing naked reference to tell the artist "she lost her wings and now has scars on her back." Since his fucked up mind knows she's the queen of Spring, he suggested her nipples to be flower-shaped. This felt like an insult, so I joked about her fascist sister Venomarginia having flower-shaped nipples, and since I often compare her to Hitler, I immediately exclaimed "Nipler!" (Etymology: **nipple Hitler**) I noticed it sounds like a slur, so a few hours after I coined that word, my friend and I got bullied by some guys as usual, so I just called them all niplers and decided this is now a slur for bullies.
