

IRYNA KACHAN , QA Engineer

Email: iryna.kachan89@gmail.com

Telegram: @iamkiv

LinkedIn: [iryna kachan](#)

Location: RB, Minsk

Languages: English - B2 (working proficiency)

Summary

QA Engineer with 3,5+ years of experience in functional testing of web applications and CRM systems. Experienced in manual testing, API testing, regression testing, and test documentation. Skilled in working with microservice architecture, requirement analysis, and defect tracking. Strong focus on product quality and continuous improvement of testing processes.

Tools and Technologies

Test Management Systems: TestRail, Squash, Zephyr

Bug Tracking Systems: Azure DevOps, Jira

Databases: MySQL, PostgreSQL(pgAdmin, DBeaver)

API Testing Tools: Postman, Swagger

Operating Systems: Windows, Android

Test documentation: test plan, checklists, test cases, bug reports, test result report

Infrastructure & Other: Kafka (message broker), VMware Workstation (VM setup and configuration), IIS (local website deployment)

Other skills: HTML, CSS basics, JSON, DevTools, Figma , Google Doc, Confluence, Salesforce Inspector

Work experience

06.2026- 08.2026

Vadarod, QA Engineer

Project: Fintech project for legal entities

Onboarding

Testing new functionality

Integrations testing

09.2024-06.2026 (support):

Innowise, QA Engineer

Project: hrm system (microservice web app)

grooming participation, requirements testing, tasks estimation

FE and BE testing , API testing

Role based testing (more than 15 roles)

new feature testing, bug reporting, retesting, regression testing, creating Postman collections

Integrations testing

02.2026-06.2026:

Project: Salesforce app

Functional testing of Salesforce features

Validation of business logic and workflows

Bug reporting and defect tracking

Retesting of resolved defects

Testing new functionality before deployment

02.2023 - 02.2024 :

OR Development, QA Engineer

project: BPM

New feature testing, Bug-reporting (Azure DevOps) , Re-test, Regression testing

Installation testing(local site installing + setting up the environment, deploying the server, DB)

Localization testing (EN, GE)

Crossbrowser testing (Google Chrome, Mozilla Firefox)

Communication with clients about bugs and requirements

Test design (using different techniques)

Performed localization testing in English and German

Examples of tested functionalities:

Gantt chart, booking work hours, dashboards, notifications (with different complicated conditions), roles, users (+ import users from AD), import/export structure etc.

06.2022-02.2023:

Omegasoftware, QA Engineer

projects:

1. web application for Network Access: web + desktop app+ mobile app (VPN-Agent)

- Performed functional, regression, integration and installation testing of a web application for network access management.
- Tested role-based access, permissions, notifications and access conditions.
- Performed cross-platform installation testing using different operating systems and configurations.
- Tested integration between web and desktop applications.
- Performed log analysis to investigate defects and identify root causes.
- Created and reviewed test cases and test scenarios.
- Performed localization testing in English and German.

2. BPM (one QA Engineer on the project)

Testing from scratch

Achievements:

Collaborated with two cross-functional teams across different projects;

Created script for users import from Active Directory, reducing the time required to prepare test data

Education

December 2021-January 2022 - trainee, Qulix Systems, Belarus, Minsk

Learning software testing theory • Learning test design techniques • Creating and executing checklists, test cases • Bug reporting

January, 2021 – March, 2021– student, IT – Academy, Belarus, Minsk , Software Functional Testing

05-07.2026, Prosto English, [English B2 course](#)

02-04.2026, Prosto English, [English B1 course](#)

10. 2023 Voitixler Tech School, Web API Practical Course

01.2021 – 03.2021, IT – Academy, Software testing, Belarus, Minsk

2007-2012 Belarusian National Technical University, Engineer-electro mechanic

2010-2012 Belarusian National Technical University, logistics specialist-economist
