

## Talking Point Reference Sheet

This worksheet will help you determine how legitimate a source is when doing research for your talking points. Always think FIRST:

**FUNDING**: Who paid for the study?  
**INVESTIGATION**: How did they do the study?  
**RESULTS**: What was discovered in the study?  
**SUBJECTS**: Who participated in the study?  
**TIME**: How long did the study go on for?

Now, list your sources, and think FIRST!

<b>Source</b>	<b>Funding</b> <i>(Who's paying for the study to be done?)</i>	<b>Investigation</b> <i>(How was the data collected?)</i>	<b>Result</b> <i>(What sort of data did the study find?)</i>	<b>Subjects</b> <i>(Who participated in the study?)</i>	<b>Time</b> <i>(How long was the study conducted for?)</i>
