Subject: Request for SAA Board information

To: <m.noble@[REDACTED]>

Dear Mr. Noble,

A confidential source has provided us your email address, which is unavailable in any SAA customer-facing resource to our knowledge.

Our online forum, Eyes On SAA (see link below), will this week be running a followup story on the lack of access of information on the SAA School Board (names, contact information, meeting agendas, meeting minutes) available to the greater SAA community. As SAA Board Chairperson, we calculate that you have access to this information. On behalf of the many concerned SAA parents that our forum serves, we are asking for you to provide this information, both prospectively, and retroactively for the past 5 years. We understand and expect that certain board matters dealt with in "executive session" will not be provided, but all other information should be.

Will you please respond to indicate if you will honor this request, and on what timetable? If you believe that you may refuse this request under any provision of educational policy or law, then please provide a copy of such policy.

Thank you.

- Lillian Hepburn-Richmond (A Cohort of Concerned Parents)
