

The Poverty Elimination and Productivity Act (PEPA) of 1926

The average Vuldavian man has the ongoing struggle of not only feeding himself but his family. This is because of the current unemployment crisis in Vuldavia caused by wars and invasions by our southern enemies. However the Vuldavian spirit shall endure and carry onwards, we must look for ways Vuldavians can provide for themselves and their families. This bill seeks not to fully solve the unemployment crisis, it seeks to relieve those currently unemployed and unable to survive in the current economy.

Firstly it will allow for temporary workspaces in which unemployed people are allowed to work while searching for jobs. This will allow them to feed their families and continue to make an income although a limited one.

Secondly, the expansion of public industries will expand the number of stable jobs in the economy and increase production in these public industries.

Finally, we cannot leave out the work needed to ensure our poorest citizens do not starve on the streets and die without having the opportunity to work.

Article One: Temporary Workspaces

- A. Temporary workspaces shall be set up in all major cities around Vuldavia paid for in full by provincial governments. Provincial governments determine which workspaces are set up where.
- B. These workspaces will provide jobs that require minimal training and education such as mining, construction, etc.
- C. Workers shall be paid 5 Slota per hour(Adjusted for inflation) ignoring any minimum wage laws as these sites should not be seen as permanent workspaces but places to go when they have no other options.
- D. Workspaces will not give a permanent job, just certain times a day when people are allowed to show up and get paid for their labour.
- E. Workspaces shall employ as many workers as possible not looking into educational backgrounds or experience. The only exception to this is that individuals who have two or more kids get priority.

Article Two: Expansion Of Public Industries

- A. The Royal Vuldavian Construction Company will seek to employ 17.5% more workers than it currently does and should expand its project as a result.
- B. The Royal Vuldavian Arms Corporation will seek to employ 10% more employees and produce more products as a result.
- C. Vuldavian Media Corporation will seek to employ 5% more employees.
- D. A new public company "The National Vuldavian Railways Corporation" will be created and begin construction on railways across the nation; many more employees will be hired here as well.
