- **Frameworks and Platforms:** Laravel, React.js, Vue.js, Node.js, vite, Webpack, gulp.
- **Content Management Systems (CMS):** WordPress, Shopify, simplaCMS, OpenCart.
- **Databases:** SQL, MySQL, MariaDB, PostgreSQL, T-SQL.
- **Integration and ETL Tools:** SSIS, REST, SOAP, GraphQL, Docker.
- **Development Tools:** GIT, SSH, FTP, LAMP, SaaS, Jira, Figma, Adobe Photoshop, Adobe XD, UI/UX.

PROFESSIONAL EXPERIENCE

Full-Stack Developer, Database Engineer

Freelancer

From June 2023

- Developing a web project for a construction company in Prince Rupert.
- Developed a web system for a marketing company to manage the database of clients, employees, and their working hours. The system also generates reports for accounting and profitability analysis, improving financial oversight and enhancing resource management efficiency.

Software Developer

Custom software development company IT-Lead, FASTEP.

Aug 2022 - Mar 2023

- Developed four comprehensive projects, responsible for the entire programming cycle, from converting Figma layouts into HTML to implementing projects with unique CMS.

Full-Stack Web Developer

IDSX. WEB2.0. Webzavod.

Jan 2009 - Jul 2022

- Over the course of 13 years, I served remotely as a lead developer in these three different companies.
- Developed integrations between applications using APIs (SOAP and/or REST) and built a data intake and processing system across different platforms, handling XML, JSON, XLS, and HTML formats with the ETL methodology (extract, transform, load), similar to SSIS, for data cleansing and transformation.
- Over the past years, I have developed a unique and secure content management system simultaneously for three different state-level projects in the CIS countries: the International Network

Institute for Combating the Legalization (Laundering) of Proceeds from Crime and the Financing of Terrorism, the International Educational and Methodological Center for Financial Monitoring, and the Council of Heads of Financial Intelligence Units of CIS Participating States. These projects have a high level of security.

- Established a platform for task management with diverse clients, aiding in the development and maintenance of their projects.
- Crafted over 300 website templates of varying complexity in HTML5/CSS3/JS. Email template design.
- Developed numerous web projects across different categories and levels of complexity (utilizing PHP native, Laravel, WordPress, openCart, SimplaCMS).
- Created a [custom CMS](#) for building websites from scratch.

Graphic designer specializing in print media, layout designer.

Editorial office of the newspaper «Halychske Slovo».

Sep 2008 - June 2014

- Designed the layouts for the weekly A2 format newspaper using Adobe InDesign.
- Developed graphic banners.
- Created the website for my company and took on the role of its administrator. Some of my work at this company can be viewed [here](#).

ADDITIONAL SKILLS

- Effective both individually and as part of a team.
- With a background in Software Engineering, I quickly master the necessary technologies to solve tasks.
- Skilled in working with various types of databases using SQL queries.
- I know how to configure computer equipment.
- Ready to obtain the necessary certification to meet the requirements of your position.

EDUCATION

MS in Software Engineering. Teacher of Mathematics and Informatic

Sep 2003 - Jun 2007

Precarpathian University Vasylyia Stefanika, Ukraine.
