Joining NETS

Welcome to Noobs for Ethnical Treatment of Scrubs, and thank you for your interest in joining our corporation.

We are a kitchen-sink corporation that originally consists of our Clan; Noobs for Ethnical Treatment of Scrubs. We are a bunch of friends who met both in real-life and online and formed a clan together. We value and prioritize fun for all above all else, and welcome you all on board.

We have no real aim in game other than to have fun, and to do it together, so you'll find our members branching out to many different things in game. We are all for most part quite active in primarily PVP, but also mining & industry as to support us, our members and our alliance, and have members branching of into ratting, exploring and the more advanced aspects of the game.

Our corporation branches out to 3 different corporations;

Noobs for Ethnical Treatment of Scrubs
Which is our main corporation that mainly operates in our nullsec pocket.
NETS Academy
Our highsec corperation that holds our noobs & highsec players that is learning the game and preparing for joining up with the main corporation in nullsec.
NETS Trading Inc.
Handles our industry, transport and logistical corporation, and is where we keep our alts.
